

# DINGLE 10 FILM FESTIVAL

## Féile Scannán an Daingin

### DFF hosts Ireland's 1st RED Users Gathering

Dingle Film Festival will welcome **RED** to the first annual Irish Red Users' Gathering in Dingle on Saturday March 20th in The Phoenix Cinema.

Dingle is certainly competing to be different as it welcomes **Alan Piper**, Operations Director of **RED** Europe, who will be showcasing the newly upgraded RED One Camera, with **Mysterium-X Sensor**, as well as premiering **RED's** 4K M-X Show Reel on **JVC's** new 4K Projector, supplied by HoloVis UK. Again a first for Ireland!

The festival are also delighted to welcome **Laura Castelli** from **ASSIMILATE** showing their real-time 4K grading solution – **SCRATCH**.

To compliment this unique event the DFF are compiling an Irish 4k Show Reel and are looking for suitable **RED** material, preferably 4K, to be included in the Show Reel. If you would like to submit footage for consideration, please contact [brian.nolan@fas.ie](mailto:brian.nolan@fas.ie) for more information as soon as possible.

In keeping with the **RED** theme the festival is also delighted to welcome **Apple** to Dingle where they will be presenting **Final Cut Studio - RED** workflow seminar. This two-hour seminar will guide you through the basic workflow of using **RED** footage with **Final Cut Studio**. Footage will be taken into **Final Cut Pro**, passed through to **Color** and back to **Final Cut Pro** again as advantages of Pro Res and **RED** raw footage are discussed. The presenter will be on-hand with a **Euphonix** MC Color Control to show the advantages of working on **Color** with this control surface.

Continuing with this amazing line-up DFF will also present **The Power of Sound** with **double Oscar™** winner, **Tom Johnson** and **Easy DCP** with **Heiko Sparenberg**.

**Brendan Tuohy** will chair a discussion on 'The Future of Film in Ireland'. The Irish Film Board has recently set up a group to look at developing a strategy for the future of the Irish Film and Audiovisual Industry. This group is drawn from the industry itself and the relevant Government Departments and agencies. It is hoped that the group will chart a strategy to double the size of the sector over a period of about five years with an increased emphasis on exports.

DFF would also like to give a special welcome to the many Irish Apple Authorized Training Centers and Trainers that will visit Dingle for their 2010 AATC/e Irish conference.

These seminars have been organized by the Dingle Film Festival, in conjunction with The FÁS: TV & Video Production Unit, Tralee.
